TEA!

THE CUP THAT CHEERS BUT NOT INEBRIATES

Few merchants and practically no consumers can tell the cup quality of teas by their appearance, therefore it behooves both merchants and consumers alike to be cautious and only buy teas from men that make the upbuilding of their tea trade their object. We buy our teas from an exclusive tea house and feel satisfied from our trade on this beverage that it is the best that we can procure. Royal Blend Teas numbers 1 and 2 at \$1 and 85c per pound respectively will make more tea and better tea than any we have ever been able to buy : : : : :

THE PROGRESS GREAT

Advancement of the Southern States During Last Decade.

TAKEN FROM CENSUS

The Gain of Rural Population Was Astonishing and the Farms Exceeded 2,400,000—Statistics as to Values and Increase.

Baltimore, March 30.—“For the southern portion of the United States the last decade was in some respects the most noteworthy of any in the nineteenth century. Its progress in population and material resources, when compared with the corresponding advance of the other states and territories, merits special consideration.”

These statements are introductory to an elaborate presentation of figures and facts showing the agricultural progress of the south prepared for the Manufacturers' Record by L. G. Powers, chief statistician in charge of agriculture for the Twelfth census. He shows that in the past two years while nearly 80 per cent of the increased population in the northern states was in cities, villages and hamlets, in the 14 southern states the movement of population was of an opposite character. The gain in rural population in the south was 65 per cent of the total increase there, the relative addition to this agricultural population being more than twice that in the north and west. Mr. Powers says:

“If Oklahoma and Indian Territory are included in the southern states, as they are in nearly all official publications, and allowance made for the inclusion in Massachusetts and Rhode Island of urban populations in township reports, it will be found that the relative increase in the southern agricultural population in 10 years is about four times that of the remainder of the nation. With such a large actual and relative gain in rural population the student of social and economic subjects is at once made aware of the enormous strides in the development of the agricultural resources of the south in the closing 10 years of the century.”

The estimate of the total number of farms in the country is something slightly in excess of 5,700,000 of which nearly if not quite, 2,400,000 are in the 14 southern States, and the relative gain in number is greater in the south than that in the remainder of the country. The percentage of increase in the rural population is less than the increase in the number of farms, and this fact indicates to Mr. Powers the rise of many families from the status of farm laborers to that of farm tenants or farm owners. He says:

“The marked increase in the rural population of the south taken in connection with the fact of the increased use of improved farm machinery makes it certain that there has been an unprecedented gain in the acres of land under cultivation, and hence of so-called improved lands in the south. The increase in the number of farms as shown by the reported farm schedules and the increase in rural population makes it certain that the increase in the last decade in improved land is greater than in either of the two preceding decades. If the final figures fail to show such a gain, it may be concluded that there was an error in the figures of the earlier years, owing to the lack of definite instruction to the enumerators as to the meaning of the term ‘improved land.’ Taking all the available facts into consideration, the writer estimates the acres of improved land in the 14 southern states in 1900 at not less than 130,000,000. The relative increase as shown by its percentage of gain, if population can be taken as a basis of estimate, must be as great as in the decade from 1870 to 1880. If that relative increase is chronicled, the improved acres of the south will be found to be 150,000,000.”

Mr. Powers presents several tables as a basis for his study, and in conclusion ventures the prediction that the south in 1900 will show, as in other decades, a percentage of gain in all farm values, with the exception of livestock, greater than for the nation as a whole. He says:

“With the opening up of new lands the subdivision of old plantations into smaller holdings and the consequent appreciation of farm values, it becomes evident that the southern farm resources have increased in the last 10 years with a percentage greater even than in the decade from 1870 to 1880, and that the census figures when published will show for the year 1900 a total exceeding \$4,500,000,000. This total may possibly closely approximate \$5,000,000,000.”

Destroyed by Fire.

Richmond, March 30.—The Jefferson hotel in this city, which was erected by late Lewis Ginter at a cost of \$1,000,000, was destroyed by fire Friday night. The magnificent structure covered half

a block in the ultra-fashionable part of the city, was built of buff brick and granite foundation and was regarded as semi-fireproof. Insured for \$650,000.

Against Platt Amendments.

Havana, March 30.—Senator Vilandua of the committee on relations of the Cuban constitutional convention has signed the report of Senator Cárter, thus placing a majority of the committee in opposition to the principal features of the Platt amendment.

AN OLD DIARY.

One Made by Major Andre During the American Revolution Found.

London, March 30.—The diary of Maj. Andre, after lying hidden for 100 years, has been discovered in England. This interesting find was made by Lord Gray the other day, while going over a lot of old family papers that probably had not been disturbed since the conclusion of the American war of independence. Lord Gray's great grandfather was commander of British troops in America at that time and Andre served on his staff, and this accounts for the diary being in the possession of the present peer. The diary is apparently original, but in order to make sure it is not a copy Lord Gray is sending over to the United States to secure samples of handwriting, none of which can be obtained here. The diary carries too early to throw new light upon the motives which prompted the tragic ending of his career, but it gives interesting glimpses of the personality of one of the historical figures of the revolution.

TO HELP THE POOR.

Horace Cousins Leaves His Estate to the Needy Under Certain Conditions.

Cambridge, Mass., March 30.—Will of Horace Cousins, late of Newton, which has been filed for probate, gives practically all the estate of \$350,000 to the deserving poor, but under somewhat singular conditions. After payment of \$20,000 to the town of Lyman, Me., for a fund, the residue goes to the city of Newton for investment until its total is \$1,000,000. The investments are to be in loans to industrial men and women of Newton to assist them in procuring homesteads. On attaining \$1,000,000 the interest is to be paid to the deserving city poor.

If the city of Newton does not desire to care for the bequest, two Boston institutions get \$10,000 each, one Newton charity \$5000 and the residue goes to Lyman, Me. There seems some question whether or not the disposition of the property hinges on the demise of the testator's children with or without issue.

Three Ships Believed Lost.

Philadelphia, March 30.—Norwegian steamer Krim, the schooner Florence and the British auxiliary bark Severn have practically been given up as lost. The crews of these vessels aggregate 54 men and all are believed to have been drowned.

The Krim sailed from this port on Jan. 25 for Vera Cruz with a cargo of 2200 tons of coal. Under ordinary conditions she should have reached her destination in about 10 days. Nothing has been heard of her.

The bark Severn sailed from Philadelphia for Baltimore and Hampton Roads last September and left that port for Santos. She has not since been reported.

The schooner Florence left the port of Spain for Philadelphia early in January with asphalt and is long overdue.

Fight in Arkansas House.

Little Rock, March 30.—In the Arkansas house of representatives Friday afternoon a personal difficulty occurred between Representative Leary of Lee county and Blalock of St. Francis county over a local bill affecting Lee county. While addressing the house, Blalock denounced as a falsehood a statement reflecting on him made by Leary in a speech. The latter then struck Blalock on the head with a cane. Both men clinched and were engaged in a struggle when the other members separated them and the sergeant-at-arms demanded peace. The affair threw the house into great confusion and it was some time before order could be restored and the proceedings resumed. The belligerents were not arrested.

Church Wrangle in Hawaii.

Honolulu, March 23.—Two official statements, which partake of the character of interdicts, have been issued by Rev. Alfred Willis, the Anglican Bishop of Honolulu, charging that Rev. John Osborne, the rector of St. Clement's chapel, has attempted to establish a new sect under the name of “Episcopal Church at Large.” Members of St. Clement's chapel assert that the bishop has taken this means of doing them injury because they declined to turn over their church property to him unless he made certain concessions which they desired.

Kohlsaat Sells the Post.

Chicago, March 30.—Chicago Evening Post has been sold by H. H. Kohlsaat to a company headed by J. O. Shaffer of Evanston, who will be president and publisher of the paper. Samuel Clover, for several years manager

JNO. B. MIKE, Manager

itor of the paper, will be editor. The publication, which will be known here after as The Chicago Post, will make a feature of financial news. The paper will remain Republican in politics.

Sultan Guards Against Anarchists.

Constantinople, March 30.—Owing to apprehensions of attempts by anarchists upon the life of the sultan, his majesty intends to completely exclude tourists from the Yildiz Kiosk. As a step in this direction he has ordered the demolition of the pavilion erected at the grand gate of the palace grounds for the accommodation of tourists hitherto permitted to attend the Selamlik.

NOTICE.

Obituaries, accounts of society events and other matters that interest only a limited number of people cannot be given space gratuitously in the columns of the Eagle. This includes obituaries written by friends of deceased, resolutions published by lodges, accounts of private entertainments, suppers, etc. This is not intended to entirely bar notices of such matters. The publishers are pleased to have these matters called to their attention for appropriate notice in the paper either by personal request, note or telephone, but long articles of the class mentioned cannot be printed without charge as for advertisements or other matters of interest to only a few persons.

The grass experiment station at Abilene, established about four years ago by the Department of Agriculture, has been discontinued. It is considered that the station has served its purpose, and its discontinuance, we learn, was recommended by Col. H. L. Bently who has been in charge.

Wharton has organized a business league. No town which expects to grow and prosper can afford to be without such an organization.

At the rate oil is now being discovered, a good drink of clear well water will soon be a thing of the past in Texas.

For City Marshal.

Although no one has offered for the office of city marshal in opposition to Mr. T. P. Boyett, who is a candidate for re-election at the election Tuesday, Mr. Boyett feels that he is due the voters of the city a formal announcement of his candidacy, and hopes to have their endorsement at the polls. Mr. Boyett has served efficiently as city marshal for two terms, and his merits and popularity, as well as good old democratic usage, argue that he should be commissioned to wear the big star another term.

For City Secretary.

Mr. H. G. Rhodes is a candidate for re-election to the office of City secretary, and also without opposition to date, yet he desires to present his name to the people and to ask their support next Tuesday, assuring one and all that he will appreciate a vote of confidence and endorsement quite as much as he would an election over strong opposition. Under Mr. Rhodes the affairs of the secretary's office have been carefully systematized and conducted on thorough business principles. The fact is a higher commendation than any words of praise might be added to this.

TWO MORE ARRESTS.

The Rice Will Contest Cause Charges of Forgery to Be Issued.

New York, March 30.—David L. Short, commissioner of deeds for Texas, and Morris Meyers, lawyer, the two persons whose names appear as witnesses to the alleged bogus Rice will, were arrested yesterday charged with forgery in the first degree. Both are friends of Lawyer Albert T. Patrick, who is charged with having murdered the Texas millionaire.

Short and Meyers appeared before Justice Jerome as witnesses in the examination of Patrick. Assistant District Attorney Osborne has declared his belief that the will is a forgery, having consulted handwriting experts. Mr. Osborne appeared before Justice Jerome yesterday and swore out warrants for the arrest of Short and Meyers.

Meyers was formerly employed by Patrick. On his examination he acknowledged that Patrick had dictated the Rice will to him. By this will the Rice millions were left to Patrick. Short was a commissioner of deeds at the suggestion of Patrick. Short, when examined before Justice Jerome, swore that he had never used his seal except when transacting business for Mr. Rice. The forgery charge against the two witnesses grows out of the fact that they signed their names to the will. The experts declare that the signature to the will is forged.

When Patrick learned of the arrests he declared that Short and Meyers were innocent of any wrong.

Charles Rice, who lives in Muncie, Ind., under the name of Carl Carlson, has arrived here to claim part of the fortune of W. M. Rice. He says he is a son of John H. Rice, a brother of W. M. Rice. According to young Rice his mother's first husband was Carl G. Carlson, whom she married in Muncie 30 years ago. A year or two after her marriage to Carlson she went to live with John H. Rice and two years later Chas. Rice was born. Carlson died in 1880 according to young Rice, and his mother and Rice married two years later. His mother died April 8, 1890 in New York. Rice died in 1888.

Released and Rearrested.

New York, March 30.—David L. Short and Morris Meyers the two men arrested Friday on a warrant charging them with forgery in first degree in connection with the will of Millionaire William M. Rice, were held in bail of \$5000 each.

Later Justice Jerome dismissed the charges against Meyers and Short and discharged them, but they were immediately rearrested on warrants based on now affidavit made by Jones, the valet of the late millionaire Rice. They were again committed to jail in default of \$5000 bail.

PATRICK'S HEARING.

Potts Gives Testimony That Will Not Do Patrick any Good.

New York, March 30.—The hearing in the case of Albert T. Patrick, the lawyer who is accused of having caused the death of William M. Rice last September, was resumed before Judge Jerome, with John R. Potts, the witness, on the stand.

Assistant District Attorney Osborne returned to the occurrence at the safe deposit vault when Patrick took the witness there and showed witness the will and assignments.

"Did you see any other papers at that time?" he was asked.

Witness replied that as Patrick pulled the will and assignments out of his pocket two checks payable to "Albert T. Patrick, trustee," with the sums left blank dropped to the floor. The checks were signed "Wm. M. Rice."

"I remarked to Patrick," said Potts, "that Rice must have a great deal of confidence in him."

"After the arrest of Patrick did you pack any of Patrick's effects?" asked Mr. Osborne.

The witness said he had not.

"Were you Mr. Patrick's counsel at any time?"

"Yes, two or three weeks before the arrest. He told me he wanted me to act as his attorney."

Dr. Walker Curry, who attended Mr. Rice in his last illness, was sick and unable to attend court. The judge and attorneys therefore went to Dr. Curry's residence and his examination took place there. He testified that he had known Rice about eight years. He also treated Jones, Rice's valet-secretary.

Dr. Curry's evidence was nothing sensational and nothing extraordinary was brought out.

Miners Will Not Strike.

Wilkesbarre, Pa., March 30.—Operators and miners have agreed to terms and there will be no strike. There is a general rejoicing among business men over the news. The happiest man in town is Rev. E. Took Dose of Strychnine.

Whitney, Tex., March 30.—Miss Fannie Elliott committed suicide at the home of M. D. Fewell, near here, by taking strychnine. She was about 17 years old and was an industrious and popular young lady. Her remains were embalmed and shipped to her old home in Windsor, Mo.

the earnest request of Hon. ie Jordan, of Georgia, presi-

dent of the Southern Cotton Grow- ers' Protective Association, and prominent farmers in this State, I issue this call for the farmers, in every county in this State to meet at their respective court houses on the first Saturday in April to con- sider the advisability of reducing their cotton acreage for this year, and also to discuss ways and means for protecting the price of our staple from present manipulations. If the cotton acreage of the South be increased, the price for the staple will go down below 6 cents next fall, which will result in the greatest financial calamity that has befallen the Southern farmers in years. Now is the time for ac- tion, because the price of the staple next season will be fixed accord- ing to the acreage planted this spring.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous re- sults of throat and lung troubles. What shall you do? Go to a warmer more regular climate? Yes, if possi- ble; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boashee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.

CUBANS FAR APART.

The Members of the Committee Cannot Agree on the Platt Amendments.

Havana, March 29.—The meeting held Thursday by the committee on relations of the Cuban constitution was not har- monious. Each of the five members of- fered a different report. Senor Juan Gualberto Gomez, who was appointed a fortnight ago to prepare one, sub- mitted a report of great length, reject- ing the Platt amendment as to clauses 3, 6, 7 and 8.

Senor Silveira reported in favor of leaving the questions of relations to the future government, but he afterward voted in favor of the report submitted by Senor Gomez.

Senor Villanueva reported in opposi- tion to any further action.

Senor DeQuesada accepted the Platt amendment with the provision that the establishing of coaling stations should not interfere with the internal govern- ment of Cuba and that the United States should be given the right to in- terfere according to the treaty of Paris, only when the Cuban government should be unable to protect life and property.

Senor Tamayo's report was in line with the Platt amendment allowing the United States to make Cuba a base of operations in case of war, in return for which the United States should guar- antee the permanent independence of Cuba, but should not intervene except at the request of the Cuban congress.

The committee will report to the con- vention Monday.

La Discusion editorially favors send- ing a committee to Washington to dis- cuss the whole question with the cabi- net and many delegates approve this suggestion.

PATRICK'S HEARING.

More Testimony Taken by Judge Jerome on the Murder Charge.

New York, March 29.—Judge Jerome, sitting as a committing magistrate, re- sumed the hearing yesterday in the case of Albert T. Patrick, a lawyer, against whom charges in connection with the death of William M. Rice, a Texas mil- lionaire, have been made. The public prosecutor in questioning witnesses de- clared his purpose of showing that in 1900 Rice was Patrick's only client and that he acted for both sides in an action to which Rice was a party. Morris Meyer, a notary public, and at one time Patrick's clerk, testified to drawing up the will of Mr. Rice which was in Pat- rick's interest. He thought the will was drawn up prior to June 30, 1900, the date on which it was executed. There might have been some conversa- tion, the witness said, between himself and Patrick as to the reason why Pat- rick was named in that instrument as the residuary legatee.

John R. Potts, who shared an office with Patrick, testified that the latter when borrowing from him to pay a bill for printing, told him that a rich client had made him (Patrick) residuary legatee under his will and showed him the will and the general assignments trans- ferring all Rice's property to Patrick.

Mr. Potts, continuing his testimony said that on the morning of Tuesday, Sept. 24, two days after the death of Rice, he received a telegram from Pat- rick asking Potts to come to Patrick's house. When he called Patrick gave him a check to have certified at the Fifth Avenue Trust company. Potts said he had afterward delivered the check to Patrick at his office, 377 Broad- way.

The hearing was continued.

To Claim an English Estate.

New York, March 29.—Walter N. Johnson of Brooklyn has sailed for En- gland to claim on behalf of a dozen American heirs the estate of Thomas Holden, valued at \$1,000,000. But for the discovery of the will of Thomas Holden, who died in 1809, the American claimants would be unable to establish their right to the estate. This will was lost to the Holden heirs for years. Holden left no children and two sets of re- latives engaged in a bitter strife over his property. Among the effects of one of the American heirs who died a few years ago the will was found. Mr. Johnson will take with him the old will. He will have power of attorney from the various American heirs.

Gilmore Pleased.

Norfolk, Va., March 29.—Lieutenant Commander Gilmore, who with many of his men was held a prisoner for many months by the insurgents in the jungles of Luzon, rejoices to hear of the capture of Aguinaldo. Gilmore is aboard the receiving ship Franklin here. He is inclined to the belief that the capture of Aguinaldo will deprive the Filipinos of the directing genius of their guerrilla campaign and bring the war to a close.

Bill to Tax Bachelors.

Springfield, Ills., March 29.—A bill has been introduced in the senate to tax bachelors. The bill provides that when a man who is above the age of 40 who has not before married applies for a marriage license he shall pay a fee of \$100 and the money so collected shall be used to build a spinsters' home.

Will Make Savage Governor.

Lincoln, Neb., March 29.—Governor Dietrich's election to the United States senate will raise Lieutenant Governor Savage to the office of governor on Dietrich's qualification as senator.

New York Sails for Manila.

Washington, March 29.—The New York sailed Thursday from Tangier to Algiers resuming her voyage to Manila.

THE KAISER'S SPEECH.

Liberal Newspapers Criticize His Re- marks Before His Troops.

Berlin, March 29.—Conservative pa- pers do not discuss Emperor William's speech to the Alexander grenadier regi- ment at their new barracks Thursday, but the Liberal papers generally com- ment on his majesty's utterances, em- phasizing the statement that the em- peror is ill-informed concerning the character of the revolution of 1848 in Berlin.

The National Zeitung expresses the inability to comprehend what current events induced the emperor to refer to the revolution of 1848, and says it can not see any signs of his majesty need- ing a body guard.

The Vossische Zeitung is also unable to see any occasion for the emperor's words since nobody in Berlin is think- ing of a revolution, and his majesty's predecessors repeatedly recognized the loyalty of Berlin's population.

The Vorwarts cites a number of pre- vious speeches of the emperor exhorting the soldiers to fight for him when ne- cessary and claims it has authentic in- formation that his words were literally as follows: "If the city of Berlin should again impudently and disobediently rise against the king as in 1848, then, my grenadiers, it would be your duty with the points of your bayonets to an- nihilate the impudent and disobedient." The Tegeblatt is amazed and asks what has occurred to justify the em- peror's words. It points out that the revolution of 1848 was not directed against the Hohenzollern dynasty and appeals "from the ill-informed emperor to the emperor rightly informed."

The Consolidation Accomplished.

Boston, March 29.—The proposed con- solidation of the Chicago, Burlington & Quincy railroad with the Great North- ern and Northern Pacific has reached its final stage. The long delayed plan, it is said is ready for submission to the Chicago, Burlington & Quincy stock- holders. The secret conference of Pres- ident James J. Hill of the Great North- ern, Charles E. Perkins, chairman of the Burlington board of directors and Ex Senator Wolcott of Colorado at Vic- toria hotel in this city Wednesday is be- lieved to have settled the question. Large Chicago, Burlington & Quincy stockholders do not manifest pleasure over rumors of the deal. Plans were laid some time ago. Wednesday's con- ference was prolonged and at the close President Hill and Senator Wolcott hurriedly departed for the west. Sena- tor Wolcott has been in Boston since March 17, talking over matters pertain- ing to consolidating.

May Help the Duke Out.

London, March 29.—The duke of Man- chester appeared in bankruptcy court today for public examination, but the case was adjourned to May 10. It was represented that Mr. Zimmerman, the duke's father-in-law, had just arrived in England and was investigating the debtor's affairs and that therefore it would be for the benefit of creditors to adjourn the case until the investigation was completed. This is taken as an in- timation that Mr. Zimmerman proposes to extricate his son-in-law from his em- barassments.

Miss Portia Knight's claim in the breach of promise action brought by her against the duke, is approaching com- pletion. It is understood heavy dam- ages will be demanded. The duke has entered appearance in the action, so he evidently intends to fight it.

Civil Service for Filipinos.

Washington, March 29.—The civi- service commission has decided to re- quest the Philippine service board at Manila to hold regular classified service examination and secure about 15 well educated Filipino men between the ages of 18 and 25 for service as aids in the coast and geodetic survey, which plan to press its work in the archipelago be- ginning about June 1. One of its offi- cials is already at Manila. The pros- pective Filipino appointees will receive \$720 a year salary to begin with and must have qualifications that include higher mathematics, astronomy, phy- sics, surveying, geography and two mod- ern languages.

Ninety-eight Thousand to the Ton.

El Paso, Tex., March 29.—Reports are being received here daily that the gold strike made in the Turquoise district in Arizona, about 30 miles from Tombston, is rich beyond the most sanguine ex- pectations. D. W. Reckart, the leading assayer in this city, received a telegram from his brother who went to the scene of the excitement that a reliable assay shows \$98,000 to the ton. Prospector and miners are flocking to the new dig- gings in droves, and the wildest excite- ment prevails.

Tragedy in Tennessee.

Union City, Tenn., March 28.—A kill- ing occurred at Tiptonville Thursday. Dick Darnell, a widely known lawyer and a Mr. Beasey met in the drug store of J. W. Walker and renewed a quarrel which began several months ago. In the fight which followed Beasey shot Darnell five times, from the effects of which he died a half hour later. Beasey was arrested.

Hobson Ordered to Washington.

Washington, March 29.—Naval Con- structor Hobson will be ordered to Wash- ington for special duty in connection with the bureau of construction and re- pair of the navy department. He has been on the sick leave for some months but this is about to expire.

Heavy Rain at Dallas.

Dallas March 29.—The heaviest rain fall in this vicinity for many months fell this afternoon. Some hail fell but not enough to do any damage.

Why is it some people will spend all their youth getting an education, and after they have grown up and begin to raise a family, do not give their children the splendid educational advantages of a morning paper—letting their children grow up in ignorance of current history, except what they pick up from hearsay, which is often a liar?

THE ART GALLERY.

A Card of Thanks in Behalf of the Ladies.

[This excellent article from the pen of a Bryan lady, was a splendid review of the art exhibition by the ladies of Bryan at the K. of P. hall last week, as well as a card of thanks; but its length precluded its publication in The Eagle. These extracts are published with apologies to the art lovers, for the desecration of the original article, but which was necessary to meet the exigencies of making a newspaper.—Editor.]

The long expected traveling picture gallery has come and gone. In this instance it was not the anticipation alone that made the blessing dear, for with the realization came the fulfillment of at least one of the aims which prompted the idea of joining the Art League; that was to create the desire to urge the study of art history and criticism and to make an effort to arouse interest in the movement for art in the public schools.

Among the pictures exhibited last week at the K. of P. Hall, there were some very beautiful water colors, painted, some by Miss Douglas, some by Dwight Williams and some by C. H. Cox of Waco of whom all Texans are justly proud.

There were copies from the antique "Venus de Milo," "despoiled yet perfect," of masters of modern times; of Rembrandt that greatest and most admirable of painters—the only man, said Sir Joshua Reynolds, who could paint a wrinkle. At his shrine we noticed many art lovers, lingering longingly.

The Club is hopeful that next year the collection will even surpass the one that has just been sent on to rejoice the art loving souls of the club next in order.

On last Friday morning several ladies representing the Shakespeare Club and the Woman's Reading Club attended a reception given at the hall—and, although the number was small when the object was taken into consideration, those who did come to do reverence were appreciative of not only the copies of the immortal Murillo, Angelo, Rembrandt, Millet, etc., but of many of the water colors—especially the work of Mr. Cox.

We cannot find words to express our gratitude toward the gentleman of that mysterious order, the Knights of Pythias—for their generosity in allowing us the use of their hall, in which to exhibit the pictures.

Thanks are due especially to Messrs. DeMaret, Ed Saunders and Floyd Dansby, the latter two gentleman having assisted in the arrangement of the pictures and in many ways contributed to the success of the Art Levee.

The Teachers' Cottage at Boulder—Bulletin Number 2.

To the Eagle.

Fort Worth, Texas, March 27th, 1901.—We issue this to remind you that such teachers of your section as intend attending the Colorado Chautauqua should commit themselves for substantial contribution to your Cottage Fund, with a view of occupying the cottage free of cost when erected.

They should understand that in the event of failure of cottage erection, they would have to pay cottage or tent rentals of \$15.00 or more each, in addition to the price set for admission or school tickets, or both (\$5.00 to \$15.00); whereas by making the erection of the cottage a certainty through their contributions and activity, they are in position to secure free of cost the General Admission and School Tickets referred to, as provided for in the Chautauqua resolutions, in addition to occupancy of the cottage without rental expense.

Thus each of them are in position to materially reduce their individual expenses, both for this and future seasons; and also, to aid the welfare of others and thereby to prove themselves worthy of and eligible for the many general benefits made possible to them through the liberality and co-operation of the Chautauqua Association and yourself.

You of course readily understand that you are in position to accept such contributions upon a basis admitting of your refunding same should you not erect a cottage.

Trusting you may be able to arrange this to considerable advantage, we are, very truly yours,

LION COFFEE

A LUXURY WITHIN THE REACH OF ALL!

Watch our next advertisement.

If you went to buy a lion whelp you would not accept a kitten as a substitute, even if the dealer urges you.

Now, don't accept a substitute for

LION COFFEE.

It is bound to turn out a common yellow cat, with none of the strength of the lion.

You want LION COFFEE because it is LION COFFEE.

If, on the other hand, you want a coffee which, in order to hide imperfections, is "highly polished" with eggs and other preparations, then do not buy

LION COFFEE.

If LION COFFEE were common, ordinary stuff, coffee drinkers would not insist on having it. It is used in millions of homes because it is the best coffee in the world for the price. If you doubt this, take a single package home and try it.

In every package of LION COFFEE you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may have by simply cutting out a certain number of Lion Heads from the wrappers of our one pound sealed packages (which is the only form in which this excellent coffee is sold).

FUNSTON THANKED.

Expression of Gratitude Sent Him by Highest Washington Officials.

Washington, March 30.—The war department has made public a portion of a cablegram sent to General MacArthur by Adjutant General Corbin conveying the appreciation of the president and secretary of war of General Funston's capture of Aguinaldo. It is as follows:

"The president directs me to express his high appreciation of the gallant conduct of General Funston, of officers and men of the army and navy engaged with him in the Balanan expedition. The secretary of war personally joins in this expression."

There is excellent reason for belief that the portion of General Corbin's message not made public relates to the case of Aguinaldo, a question whose deportment is now a source of some perplexity to the administration. While it is probable that General MacArthur is asked for an expression of his judgment as to the best course to pursue with regard to the prisoner, it is barely possible the message contains definite instructions on that point.

Reward for Funston.

Washington, March 30.—In view of General MacArthur's specific recommendation, endorsed by General Wheaton, that General Funston be appointed a brigadier general in the regular army there seems to be no doubt in well informed quarters that the president will comply promptly with these recommendations. Contrary to a general impression, General Funston's appointment as a brigadier general would not necessarily mean his enforced promotion to the head of the army in consequence of the retirement of officers now his superiors in rank. Whether his advancement would be slow or rapid would depend altogether upon the wishes of the chief executive.

Permission to Visit Aguinaldo.

Manila, March 30.—The wife and mother of Aguinaldo, who has been living at Binacayan, near old Cavite, have been granted permission to visit him.

The Spaniard, Lorenzo Pristo, who is charged with assisting the insurgents by furnishing information to the insurgent General Cailles in exchange for trading privileges was tried by military commission, found guilty and sentenced to death. General MacArthur then commuted the sentence to imprisonment for 10 years. Pristo was agent of the firm of Mendezena & Co., and to a certain extent was associated with D. A. Carmen, the American contractor also charged with aiding Filipino insurgents.

Mother and Children Perish.

New York, March 30.—Mrs. Esther Cohen and two of her children perished by the burning of a 5-story tenement house here early this morning. In the panic which occurred mothers lost their reason and threw their children from windows and fire escapes to the street below. That all were caught by the police and firemen and escaped serious injury seems almost a miracle.

St. Louis, March 30.—February grand jury which on Friday made a most scathing report on the fraud perpetrated at the last election indicted 31 clerks and judges of the election for alleged neglect of duty. One man indicted on the charge of unlawfully acting as challenger.

Measures Taken Against Rinderpest.

Washington, March 30.—At the suggestion of Secretary Wilson, Secretary Root has taken measures to prevent introduction of rinderpest from Philippines into Hawaiian islands and this country. Rinderpest is a disease among animals similar to murrain.

TEXAS LEGISLATURE.

Sine Die Adjournment Resolution Stands for April 9.

PETITION GOVERNOR.

House Members Want Time of Calling Special Session Changed—Galveston Charter Bill Passes Senate With Amendment.

Austin, March 30.—The McFall resolution, repealing the sine die resolution did not get before the house yesterday morning as the hour for the consideration was caught between and shut out by privileged matter and a specific order.

It is pretty generally accepted now that the adjournment will be had on April 9. A petition was circulated Friday among the members of the house and numerous signatures secured asking the governor to change the time for the special session to May or June instead of August. It is unlikely, however, that the governor will grant this request in view of the opinion of the attorney who is adverse to the passage of the general appropriation bill before Sept. 1. The house spent the first two hours reconsidering local bills passed Thursday night and repassing them with the emergency clause.

The house wrangled for an hour over a resolution offered by Mr. Evans providing for the payment of the expenses of the last illness and funeral of the late Representative Ridling of Fannin county and finally laid it on the table subject to call.

The general land bill was laid before the house and the previous question was ordered on the amendments offered by Messrs. Willacy and Garner, including Duval, Nueces, McMullen, Uvalde and LaSalle counties in the absolute lease district. Both were adopted.

In the afternoon the bill was engrossed by a vote of 81 to 8.

A motion to adjourn to Monday was voted down.

Senator Davidson of Galveston succeeded in getting the Galveston commission bill finally passed by the senate with a few amendments.

These amendments changed the phraseology in certain parts of the bill, made necessary because of the amendments adopted in the house, providing that two of the commissioners should be elected by the voters of Galveston; also providing for refunding the bonded debt of the city at a rate "not to exceed 5 per cent" instead of "at 3 per cent."

The only material amendment was offered by Senator Davidson of Galveston on the floor of the senate. It provides that the commissioners shall not qualify before the first Monday in June, 1901.

Mr. Grinnan called up his bill providing that suits against corporations shall not abate upon the dissolution of the corporation.

The pending question was on the substitute for the bill offered by Mr. Potter. The substitute was engrossed and passed under suspension of rules.

The senate finally passed the house bill validating Confederate land certificates.

On motion of Mr. Savage the senate refused to concur in the house amendment to his bill adding civil government to the public school curriculum.

On motion of Mr. Paulus the senate concurred in the house amendments to the bill prohibiting traffic in teachers' examination questions.

Mr. Davidson of De Witt, secured consideration of his bill reorganizing the board of pardons so as to require them to spend one month of each year visiting the penitentiaries and convict camp and look into the condition of each convict.

An amendment was adopted fixing the salaries of the board of pardon advisers at \$1500 per annum. The bill was engrossed and passed finally.

Some bills were passed to engrossment.

The house was 35 short of a quorum today and the senate held no session.

An Old Offender Arrested.

Omaha, March 30.—The man giving his name as John R. Hall, who was arrested in this city two days ago as a suspicious character, has been identified as Prentice Tiller, who is alleged to be the author of a host of crimes against the government and for whose arrest a number of rewards have been offered, amounting to several thousand dollars. Tiller admitted having served penitentiary sentences for different robberies. He is credited with operating in Cincinnati, St. Louis, St. Joseph, Kansas City and several southern and eastern cities.

Two Cotton Oil Mills.

Fort Worth, Tex., March 30.—There has been two companies organized here for the purpose of erecting cotton seed oil mills at Stephenville and Comanche. The Stephenville company is to be known as the Stephenville Oil company and is to have a capital stock of \$50,000. The Comanche company will be incorporated under the name of the Comanche Oil Mill company, \$50,000 capital stock. Work will be commenced at once on both mills.

Successor to Bishop Wigger.

New York, March 30.—Information contained in a private letter received here from Rome is that the Rev. Chas. H. Colton of this city, has been selected as the successor to Bishop W. M. Wigger, of the diocese of Newark. The information is said to be authentic.
